

**Name of the Cell/Department:** NCC  
**Academic year:** 2022-23  
**Name of the program:** Tree Plantation Campaign  
**Date:** 29-04-2023  
**Venue:** Invertis University, Bareilly  
**Description:** Tree Plantation Drive Outside Campus.

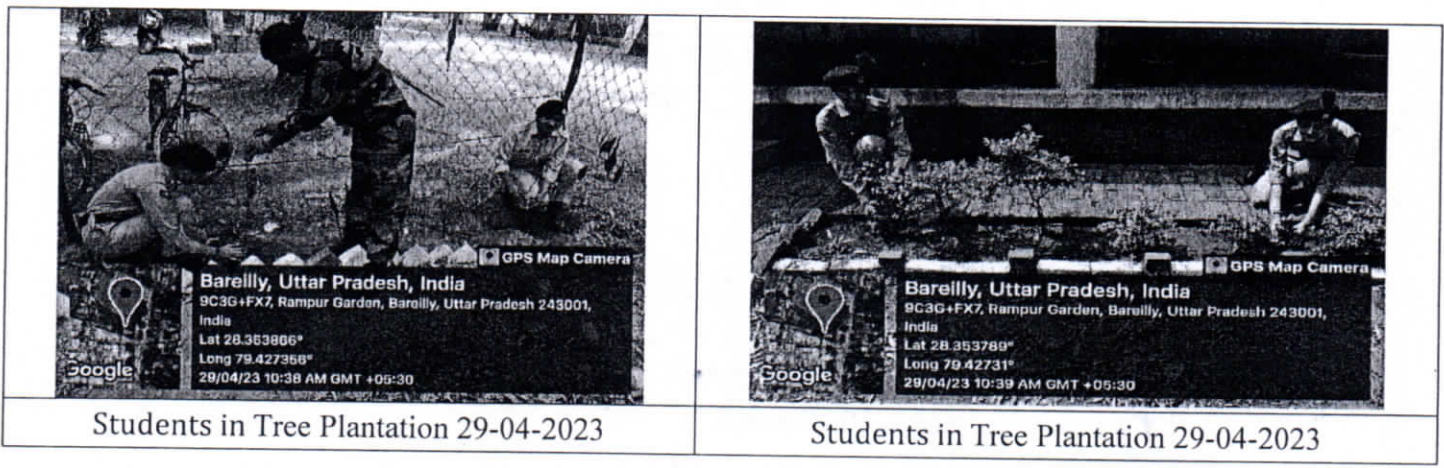

"Tree Plantation Drive" organized by the 8 UP girls BN and 21 UP BN of Invertis University organized Tree Plantation Campaign outside our campus on 29 April at 10:30 AM to 2:30 PM. This initiative was undertaken with the objective of promoting environmental sustainability and contributing to a greener and healthier community.

Primary objective of the tree plantation initiative was to promote environmental sustainability, enhance the aesthetic appeal of our surroundings, and a sense of responsibility for the environment among NCC cadets. The initiative began with careful planning, including the selection of appropriate tree species, location identification, and resource allocation.

NCC cadets collaborated with local environmental organizations and the community to ensure a successful tree planting event. Cadets, along with volunteers from the local community, planted a total of 200 trees. A dedicated team of NCC cadets has been assigned the responsibility of regular maintenance.

**Impact:**

- Environmental: The tree plantation initiative has contributed to improving air quality, reducing soil erosion, and providing habitat for local wildlife. It also aligns with the broader goals of combating climate change.
- Community Engagement: The event witnessed active participation from the local community, strengthening the ties between NCC and the residents. This engagement fosters a sense of community responsibility for the environment.
- Cadet Development: NCC cadets involved in the initiative have gained valuable experience in teamwork, leadership, and environmental stewardship. It aligns with NCC's mission to produce responsible citizens.
