Dear Students,

CRC IS Organizing Industry Readiness Program for Tech Graduates. I would like to bring your attention to the importance of industry expectations for fresh engineering graduates.

In order to make the transition from college to industry smoother for students at the **Invertis University**, I would like to **propose a solution**. We have identified several key insights through our extensive experience in the **Computer Science** and **IT industry**, as well as our interaction with millions of students.

Here are a few important points to consider:

- 1. Data Structures & Algorithms (DSA) and Aptitude skills** have a significant weightage of **90%** in the initial screening rounds of interviews conducted by most product-based companies such as **Google, Amazon, Microsoft**, as well as startups like **Zomato, Paytm**, and **Swiggy**.
- 2. Over 80%** of students are rejected in the technical round due to a lack of proficiency in DSA.
- 3. More than 70%** of students fail the screening round because they are not efficient in solving aptitude problems.
- 4. Leading MNCs** conduct coding contests like **CodeVita by TCS** and **HackWithInfy by Infosys**, focusing heavily on DSA.

To bridge this gap between student skill sets and industry standards, we propose conducting a **GPAT (Geeks Placement Assessment Test)** specifically designed for your college. This test will help evaluate students' skills against industry standards, **and it does not contain any commercials**.

Below are the details of the test:

- **Time Duration:** 2 Hours
- **Test Mode:** Online
- **Test-Pattern:** 30 MCQ Questions (10 DSA and 20 Aptitude Based Problems including verbal, quantitative, and logical abilities)
- **Coding Questions:** 3
- **Primary Focus:** 2nd Year to Final Year Students

#### Test Procedure:

- An Acknowledgement to this email thread with the available date and time slot to conduct the test.
- GeeksforGeeks will provide the contest link, which needs to be circulated from the institute's end.
- The test window will be open only during the finalized test time.
- A minimum of 400 participants is expected to take part in the test.
