

**Course Outcomes (COs)**

<b>Program Name:</b>	BCA (Artificial Intelligence)	<b>AY</b>	2022-23
<b>Course Name:</b>	Programming in C	<b>Class / Sem</b>	1st Semester
<b>Faculty Name:</b>	Kuldeep Singh Rana		

**Course Outcomes**

After completing this course, the student will be able to:

CO Number	CO Statement	Taxonomy
CO1	Explain the concept and recognize the basic terminology used in computer programming.	Understand
CO2	Discuss the principles of designing structured programs	Understand
CO3	Develop the programs in C language and use different data types for writing the programs.	Create
CO4	Construct the programs connecting decision structures, loops and functions.	Create
CO5	Discuss the dynamic behavior of memory by the use of pointers.	Understand
CO6	Discuss data structures and create / manipulate basic data files and developing applications for real world problems.	Understand

**Taxonomy:** Remember, Understand, Apply, Analyse, Evaluate, Create

  
**(Kuldeep Singh Rana)**  
**Faculty Name and Signature**

  
**Head**  
Department of Computer Applications  
Faculty of Computer Applications  
Invertis University, Bareilly (UP)

  
**Registrar**  
Invertis University  
Bareilly

  
**Deao Academics**  
Faculty of Computer Applications  
Invertis University, Bareilly (UP)
