

Course Outcomes (COs)

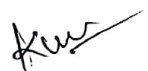

Program Name:	B. Sc. H (Chemistry)	AY	22-23
Course Name:	Inorganic Chemistry –IV	Class / Sem	V Sem
Faculty Name:	Dr. Kuldeep Chauhan		

Course Outcomes

After completing this course, the student will be able to:

CO Number	CO Statement	Taxonomy
CO1	Understand various types of coordination numbers.	Understand
CO2	Analyze the effect of oxidation states on magnetic properties.	Analyze
CO3	Identify stability of various oxidation states.	Remember
CO4	Evaluate general group trends with special reference to electronic Configuration.	Evaluation
CO5	Solve the spectral and magnetic properties.	Apply

Taxonomy: Remember, Understand, Apply, Analyse, Evaluate, Create
