

Organized by: Department of Applied Sciences and Humanities

Academic year: 2019-20

Name of Event: Trip to IVRI

Date: 31st October 2019

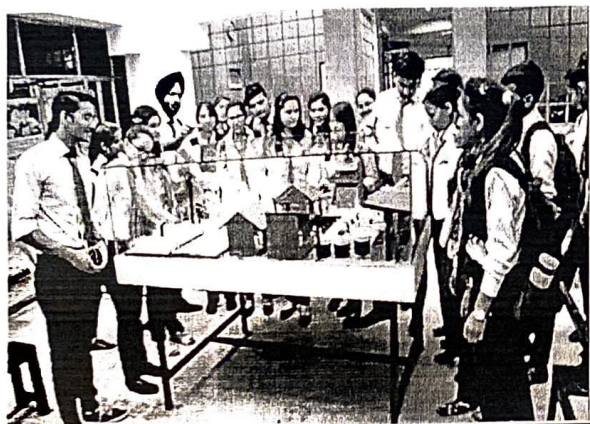

Venue: IVRI, Bareilly

Description:

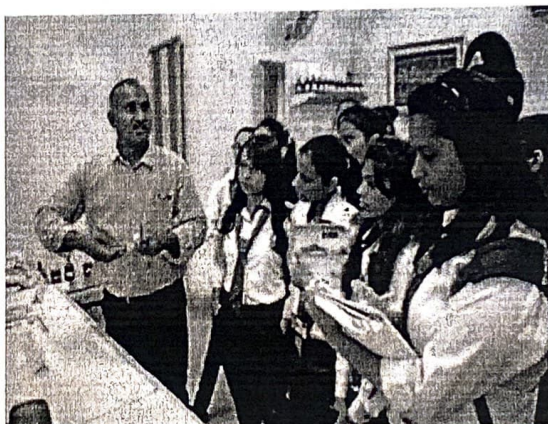

The students of B.Sc.B.Ed (ZBC) and B.Sc. (ZBC) visited the Indian Veterinary Research Institute (IVRI) on the 31st of October. The students at the IVRI were educated about the Integrated Farming System (IFS) which benefits the environment by reducing green house emissions, water pollution, and soil erosion. Information was shared on how IFS reduces hazardous agrochemical and pesticide usage in order to deliver pollution-free products.

The students also visited the ATIC division, the museum, medicinal plants garden and the biotechnology division.

Later, an informative lecture was delivered by Dr. Sujoy Kumar Dhara on Farming practices that not only boots productivity but is also Environment- friendly.
