About the University:

Invertis is a leading University offering a wide range of courses pertaining to various fields of study. The journey started as an institute in 1988 and today it stands as a full-fledged university with a number of faculties under its umbrella. It is a delightful destination for the students not only in terms of acquiring academic progress but also for holistic development by studying in a world-class environment. Invertis university offers courses across a broad spectrum of disciplines viz. Humanities, Engineering, Applied Sciences, Agriculture, Biotechnology, Computer Applications, Education, Journalism, Management, Pharmacy, Law & Architecture. The teaching methodology adopted by the university includes learning beyond classroom academics ensuring holistic development of the students. It is achieved through the wealth of faculty and guidance from the management preparing students for the life ahead through career-shaping. The university has a robust placement system & result in the corporate sector thereby giving the students industrial exposure through corporate involvement. The university has a tradition of excellence carried forward by its students raised among the leaders of the university and working as successful professionals globally.

About the Department:

The Department of Education is home to a vibrant and dynamic community of scholars. It has been fostering critical thinking and motivating students to defy their disposition. In pursuit of granting academic and scholastic excellence our integrated graduate programs train students to be skilled scholars and effective teachers. The vision of the department is to provide the best education to the students that is directly applied to problems and situations encountered in real life and resulting in a successful career.

About the Conference:

Indian National Education Policy (NEP) first came in 1988 and the second in 1986 which modified in 1992. Since then a number of significant changes have taken place in the country, society, economy, and the world at large. While the education sector needs to gear itself towards the demands of the 21st century and the needs of the people and the country, the new National Education Policy was introduced by the Government of India. The NEP-2020 proposes the internationalization of Indian education and preparing the teachers with global perspectives and making India a global education hub. This policy has the potential to transform the nation and the entire humankind. In this regard, the Education Department of Invertis University tried to bring all stakeholders – academia, think tanks, experts, social scientists, and budding scholars representing leading universities, institutions, organizations across the globe at one platform to discuss, assess the presence, need, promotion and Global perspective of Education as an integral part of NEP at all levels.
