OCTAVUS[∞] CONSULTING
Intelligence Redefined

**Trainee Analyst – Octavus Consulting
Life Sciences Consulting
Noida**

Position

Octavus Consulting, a life sciences consulting company with office in Noida, has opening for Trainee Analyst positions to be based in its Noida office.

Job Description

The candidate will play an integral role in executing consultancy engagements commissioned by the organization's biopharmaceutical and pharmaceutical clients. This will be achieved through effective collection and analysis of competitor, market and stakeholder evidence using secondary resources.

The candidate must be well versed in the biomedical sciences and will preferably be able to demonstrate an understanding of at least one of the main therapeutic areas and the associated clinical development or commercialization pathway. They will be a high-energy, results-oriented individual with a creative and analytical mind who has the ability and desire to source relevant insight through secondary data analytics. They must also possess excellent communication skills, both written and oral, and be able to operate effectively as part of a team. He/ She must be able to grasp/ understand the training provided and use the knowledge and training effectively in executing the projects and collection of information as well present the same in the company/ client format

The position offers a rare opportunity to be mentored by seasoned industry professionals, to become expert in cutting-edge therapies and to be exposed to senior-level client decision-making. The organization runs a merit-based culture and there is the opportunity to develop and progress quickly.

Responsibilities

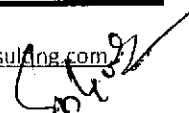

As an Trainee within our general practice:

- Secondary Data Analytics: the sourcing, analysis and reporting of public domain information, be it scientific, clinical, commercial, corporate or market
- Analysis and Reporting: working with other members of the project team to analyse the findings, and develop conclusions and recommendations
