Name of the Cell/Department: Department of Mechanical Engineering
Academic year: 2018-19
Name of the program: Workshop on "ICT Integration for Effective Teaching and Learning"
Date: 10th August, 2018
Venue: Seminar Hall-1
Description:
 The Department of Mechanical Engineering organized a workshop on "ICT Integration for Effective Teaching and Learning" on August 10, 2018. The workshop aimed to explore and promote the use of Information and Communication Technology (ICT) tools in the field of education to enhance teaching and learning experiences.

The event commenced with an inaugural address by the Head of the Department, emphasizing the importance of incorporating ICT into education to stay current with technological advancements. Participants engaged in interactive discussions on topics such as best practices in online teaching, utilizing multimedia resources, and adapting to digital learning environments. Faculty members shared their experiences and success stories of integrating ICT into their courses, providing valuable insights and inspiration for their peers.

A total of 160 participants benefited from this event. The list of programs included in this event was inaugural session, talks by guest speakers, Q&A session summarization, concluding remarks, valedictory session, and vote of thanks. At the end of the program the convener has taken the feedback from the participants and the key takeaways from the feedbacks are: Participants gained a deeper understanding of the potential benefits of ICT in education, Faculty members acquired practical skills in using ICT tools, enabling them to create interactive and engaging learning experiences, The workshop fostered collaboration among faculty members to explore innovative teaching methods.

	<p>The Department of Mechanical Engineering organized a workshop on "ICT Integration for Effective Teaching and Learning" on August 10, 2018. This workshop served as a pivotal platform to explore the multifaceted role of Information and Communication Technology (ICT) tools in the realm of education. The inauguration commenced with an insightful address by the Head of the Department, emphasizing the indispensability of incorporating ICT into the educational landscape to remain aligned with technological progress. Participants actively engaged in dynamic discussions encompassing topics such as best practices in online teaching, harnessing multimedia resources, and adeptly adapting to the evolving digital learning environments. Additionally, faculty members shared their diverse experiences and success stories at integrating ICT into their pedagogical approaches, thereby providing fellow educators with invaluable insights and inspiration. In essence, the "ICT Integration for Effective Teaching and Learning" workshop was a transformative event that kindled a spirit of innovation and collaboration among educators. It underscored the critical role of ICT in shaping contemporary education and equipping both instructors and students with the tools and skills needed for success in the digital age. The workshop's success lay in its ability to facilitate robust knowledge exchange and foster a sense of unity among participants. This initiative reflects the unwavering commitment of the Department of Mechanical Engineering to deliver education that remains at the forefront of technological advancements, ultimately benefiting both educators and the broader educational community.</p>
