

**Invertis University**  
**NH-24, Bareilly-243123, U.P.**

**Name of the Cell/Department:** Department of Computer Science & Engineering

**Academic year:** 2019-20

**Name of the program:** Webinar on “Technology-Enabled Teaching and Learning”

**Date:** 14<sup>th</sup> October, 2019

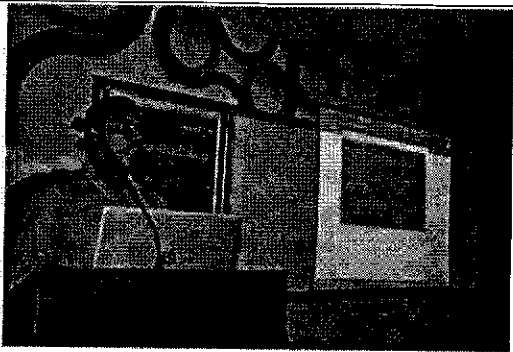

**Venue:** Seminar Hall-1

**Description:**

The Department of Computer Science & Engineering at Invertis University hosted an insightful workshop on "Technology-Enabled Teaching and Learning" on the 14th of October, 2019. The workshop aimed to explore innovative ways of integrating technology into the education process and was attended by faculty members, students, and education enthusiasts from diverse fields. The workshop commenced with a warm welcome extended to all attendees by the organizing committee. The Dean of the Department of Computer Science & Engineering, along with faculty members, expressed their gratitude for the participants' presence and enthusiasm.

Dr. Suhail Javed Quraishi then took the stage and delivered an engaging and insightful session. He began by discussing the evolving landscape of education in the digital era, emphasizing the importance of adapting teaching methods to align with the expectations and preferences of today's tech-savvy students.

A total of 86 participants benefited from this event. The list of programs included in this event was inaugural session, talks by guest speakers, Q&A session summarization, concluding remarks, valedictory session, and vote of thanks. At the end of the program the convener has taken the feedback from the participates and the key takeaways from the feedbacks are: The use of technology can foster greater student engagement through interactive activities, quizzes, and multimedia presentations; Online platforms enable educators to reach a broader audience and facilitate global learning opportunities; Online platforms enable educators to reach a broader audience and facilitate global learning opportunities.
