**Program Overview:**

To expand the knowledge of sustainability across various organizations, industries and practices; including business, consulting, environmental, and social and governance (ESG), and energy sectors.

Dr. Subho Chattopadhyay  
(HOD)

**Invertis University, Bareilly**  
**Faculty of Management**  
**Session 2020-21**

**Value Added Course-Business Sustainability Management - MB-012**

**Course Aim:**

- To expand the knowledge of sustainability across various organizations, industries and practices; including business, consulting, environmental, and social and governance (ESG), and energy sectors.

**Course Objectives:**

- To learn sustainability challenges and opportunities in the global economy
- To understand the design, technology and planning for sustainability
- To explain regulatory environment and international policies for sustainability

**Course Outcome:**

By the end of this mini course, students will be able to:

- Apply knowledge of Business Sustainability Management
- To learn sustainability challenges and opportunities in the global economy
- To understand the design, technology and planning for sustainability
- To explain regulatory environment and international policies for sustainability

**Course Content:**

- Identification of Sustainability challenges and opportunities.
  - Analysis of the business case and leadership for action.
  - Discussion of regulatory environment and international policy.
  - Analysis of Production and consumption.
  - The value chain: Implementing business models and processes for sourcing, producing, and consuming sustainably.
  - Design, technology and planning for sustainability.
  - Communication and marketing identification.
  - Collaboration and partnerships.
  - Rewiring the business approach.
  - Learn to be an effective change agent.
  - Overcome barriers to change, obtain networking support, and create a personalized sustainability action plan.
  - Corporate, government, and non-profit actors to bring about large-scale change in the sustainability space.
  - Policy instruments, international agreements, and the role of business and civil society in shaping a zero-carbon economy.
  - Impart the importance of good leadership in achieving change.
  - The role of innovative design, planning, and technology in facilitating sustainable business.
-
