### FAQs

#### Generation Units

Energy generated by Solar Power Plant for the given invoice period as recorded by the Energy Meters

#### Adjustment Units

Units derived from alternative record (for example Inverter generation record) for the specific instances where deviation was observed in generation unit due to technical issues in the metering panel

#### Tariff

Per unit agreed cost for billing for the invoice period as per Power Purchase Agreement.

#### Deemed Generation Units

Potential Units generated for periods when Solar Power Plant could not operate due to reasons un-attributable to the Power producer including but not limited to power outage, curtailment of solar generation with DG running etc.
