Value Added Course-Business Sustainability Management - MB-012

Course Aim:

- To expand the knowledge of sustainability across various organizations, industries and practices; including business, consulting, environmental, and social and governance (ESG), and energy sectors.

Course Objectives:

- To learn sustainability challenges and opportunities in the global economy
- To understand the design, technology and planning for sustainability
- To explain regulatory environment and international policies for sustainability

Course Outcome:

By the end of this mini course, students will be able to:

- Apply knowledge of Business Sustainability Management
- To learn sustainability challenges and opportunities in the global economy
- To understand the design, technology and planning for sustainability
- To explain regulatory environment and international policies for sustainability

Course Content:

- Identification of Sustainability challenges and opportunities.
- Analysis of the business case and leadership for action.
- Discussion of regulatory environment and international policy.
- Analysis of Production and consumption.
- The value chain: Implementing business models and processes for sourcing, producing, and consuming sustainably.
- Design, technology and planning for sustainability.
- Communication and marketing identification.
- Collaboration and partnerships.
- Rewiring the business approach.
- Learn to be an effective change agent.
- Overcome barriers to change, obtain networking support, and create a personalized sustainability action plan.
- Corporate, government, and non-profit actors to bring about large-scale change in the sustainability space.
- Policy instruments, international agreements, and the role of business and civil society in shaping a zero-carbon economy.
- Impart the importance of good leadership in achieving change.
- The role of innovative design, planning, and technology in facilitating sustainable business.
