

Name of the Cell/Department: Department of Civil Engineering

Academic year: 2021-22

Name of the program: One Week FDP on Outcome Based Education (OBE)

Date: 13-18 June 2022

Venue: Seminar Hall-1

Description:

The Department of Civil Engineering, Invertis University, in collaboration with the International Association of Advanced Materials (IAAM) Sweden, successfully conducted a comprehensive One Week Faculty Development Program (FDP) on Outcome Based Education (OBE) from 13th to 18th June 2022. The program aimed to enhance the knowledge and skills of faculty members in the field of civil engineering, focusing on the principles and practices of Outcome Based Education. It was designed to equip participants with the necessary tools and techniques to implement OBE effectively in their teaching methodology.

Dr. Ashutosh Tiwari (Director of the IAAM Sweden) and Dr. Anshuman Mishra (IAAM Sweden) delivered talks on various topics such as effective teaching methodologies, active learning strategies, and the integration of practical applications to enhance student learning outcomes, insights into curriculum design, learning outcomes, and assessment strategies.

A total of 105 participants benefited from this event. The list of programs included in this event was inaugural speech, talk by the guest speakers, Q&A session summarization, concluding remarks and vote of thanks. At the end of the program the convener has taken the feedback from the participants. The key takeaways from the feedbacks are: Participants expressed that the program deepened their understanding of the principles and practices of Outcome Based Education. They gained clarity on the importance of defining clear learning outcomes and aligning teaching methods and assessments accordingly. The program equipped them with practical tools and techniques to implement OBE effectively in their classrooms.
