Report **Blood** Donation camp

“Heroes come in all types and sizes”

To facilitate a great cause the blood donation camp was organized by “Clara Swain Mission Hospital” on Thursday, 14th October, at **Invertis University** in collaboration with **Lions Club, Bareilly**, under the supervision of the Honorable Chancellor Dr. Umesh Gautam.

Entire team of “The Responsible Invertian Club” was carrying the different aspects of Blood Donation Camp like; on the spot registration, ensure proper testing of donors including their weight, BP, Sugar, Hemoglobin, ensure all the medical facility, maintaining of queue, after donation requisites etc.

Dr. Sangeeta Saxena and Mr. Amitabh Drone were available from Mission Hospital along with 60 members of staff including Nurses, specialist, blood bank incharge and other helping staff.

Dr. Umesh Gautam (Chancellor), Invertis University) was continuously taking the feedback of donors and giving them necessary instructions. He also arranged 3 Ambulance to tackle with any medical circumstances.

Ms. Swati Bhardwaj (**Convener**) Blood donation camp was maintaining the balance of all necessary items along with faculty team of The Responsible Invertian including Amritansh Mishra, Ruchi Rastogi, Nasreen Javed, Avtan Singh, Dr. Meenakshi Verma etc.

Camp was organized to help the poor section of our society who can't afford expenses may occur due to any accident or any other medical emergency happened to them.

It began at around 9:30 am and continued up to 4 pm, with the great crowd of blood donors throughout. Donors came from different locations including faculty, students and staff members of Invertis University.

The corridor of the seminar hall 1 and 2 of the university was full with young Invertians, happy to be able to play their part in lending a helping hand to people in the region. 20 Students of pharmacy were giving their assistance in blood donation camp as volunteer along with their faculty members and they were learning practical aspects of pharmacy.

One of the seminar halls was utilized for a thorough medical check-up of potential donors, while another hall was utilized, where donors could lie down and recuperate for a while before they leave venue.

They were provided with glucose water, food including biscuits, a fruity and a cup of coffee. Camp was also sponsored by **Reliance Jio**, who were distributing Jio sim to all the blood donors free of cost.

It was great to see more people than pre-registration numbers turning up in the venue. This stretched the capacity of the blood bank, as a result of which the contact details of the donors were taken so as to allow them to donate at the earliest to the blood bank. The blood bank collected **250** units of blood.

The samples were carefully sealed and transported away, while the volunteers and hospital staff helped in the clean-up of the area. Throughout the morning, there were smiles and laughter all around - a true embodiment of what we believe in - selfless service with a smile. The donors will receive the certificates of recognition and also get a card where one unit of blood is available free from Mission hospital blood bank in next one year.

We thank all the campus community for coming forward for this great cause. Invertis University and Mission Hospital are honored and feel privileged to make Blood Donation camp a great success.

The banner features logos for Invertis University Bareilly, The Responsible Invertian, and the Lions Club Bareilly Magnet City. Dear Mr. Anurag Mishra.....

On behalf of the Blood Bank of Clara Swain Mission Hospital, I would like to take this opportunity to express my appreciation and say a big "Thank you" to YOU the blood donor. You are the unsung hero of Bareilly who has quietly helped people in need.

When you took out time from your busy schedule to donate blood, it helped one of your neighbors, friends, family member, or perhaps, even YOU! They are the people who were recipients of the blood you donated. These people walk around and they don't know that YOU were the one who helped them when they were in need. They could be chemotherapy patients, expectant mothers, and people with blood disorders or organ deficiencies, who need transfusions on a regular basis. Healthy blood, to give patients or receive transfusions, can bring that they all have in common is that they really needed the blood when they were in need at the time of need.

It is for these that I am writing this letter. For the time that you spared, someone in need escaped the dangers of this life-threatening infection of the blood. Blood is the sustaining force, your donation helped to promote health and save lives. Now can take pride in the thought that every time a life is saved, your kindness and contribution to the community was a part of it.

Once again, thank you for volunteering to donate blood and helping so many lives.

With regards,
Dr. Umesh Gupta
