

## **INVERTIS UNIVERSITY, BAREILLY**

### **CODE OF ETHICS**

The University has a policy on all sorts of Research Misconduct such as fabrication, falsification, plagiarism, and other serious deviations from accepted practices in proposing, carrying out, or reporting results from research.

Scholars / faculty should ensure that they have written and submitted only original works, and if they have used the work and/or words of others, that should have been appropriately cited. Publications that have been influential in determining the nature of the work reported in the thesis / research paper should also be cited. Plagiarism takes many forms, from "passing off" another's paper as the author's own, to copying or paraphrasing substantial parts of another's paper (without acknowledgement), for claiming results from research conducted by others. Plagiarism in all its forms constitutes unethical publishing practices and deserves condemnation.

The Research Monitoring Committee ensures that all submitted thesis / research papers being considered for award of degrees undergo through plagiarism detection software "Turnitin" and an Anti-Plagiarism certificate to be issued by the office of URDC Chairman for submission of thesis.

This is in accordance with the PhD ordinance of the university section 11.0 Cancellation of Registration and very specifically in subsection 11.3.
