Report of Skill Development Workshop

Event: AWS Cloud Technology

Resource Person(s): Mr. Santosh Kr. Jha, Cloud Technology Consultant

Date: 23th September, 2019 to 28th September, 2019

Venue: Seminar hall 2, Invertis University

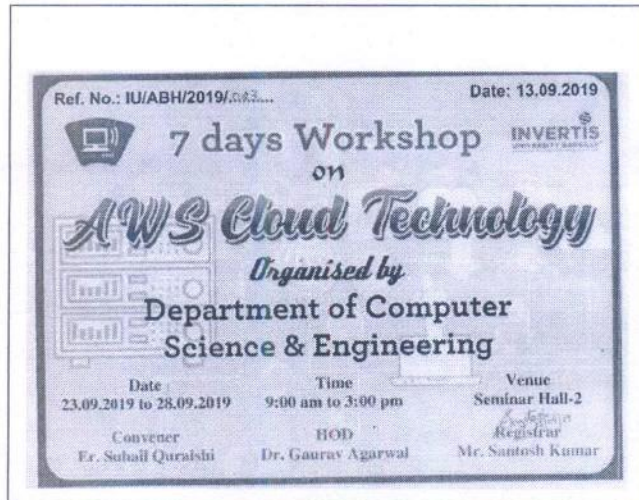

Attendees: 86

Event Description: The objective of workshop was to provide an exposure to the faculty members & students in the field of "AWS Cloud Technology" to enhance their knowledge in the domain. The key aim of this workshop is to acquaint the participants with the various services provided by the AWS cloud platform. The course emphasizes to build a workable knowledge of all the technology used to build IT infrastructure of any small/large companies on AWS cloud platform. Such kind of AWS cloud technology knowledge will also help India's young people to improve their employability quotient and job worthiness in the market. During one week of the workshop: Amazon web services like S3, EC2, VPC, IAM, Databases, CloudWatch, etc along with live demo of these services on AWS console UI and many more will be covered.

Technical Analysis and Financial Services

Resource Person(s): CA Sachin Agarwal

(Technical Analyst and Full-Time Trader in Stock Market)

Bombay Stock Exchange Institute Ltd

Date: 26 Sep 2019

Venue: Room No. M1, Academic Block I, Invertis University

Attendees: 57

Event Description:

With a view to providing exposure to the students in the area of financial markets, the Department of BBA B.COM organized a workshop on "Technical Analysis and Financial Services" on 26th September 2019. The lecture was delivered by CA Sachin Agarwal (Technical Analyst and Full-Time Trader in Stock Market) from Bombay Stock Exchange Institute Ltd. The lecture basically focused on technical analysis related to finance. Technical analysis is a trading discipline employed to evaluate investments and identify trading opportunities by analyzing statistical trends gathered from trading activity, such as price movement and volume. Unlike fundamental analysts, who attempt to evaluate a security's intrinsic value, technical analysts focus on patterns of price movements, trading signals and various other analytical charting tools to evaluate a

Santosh

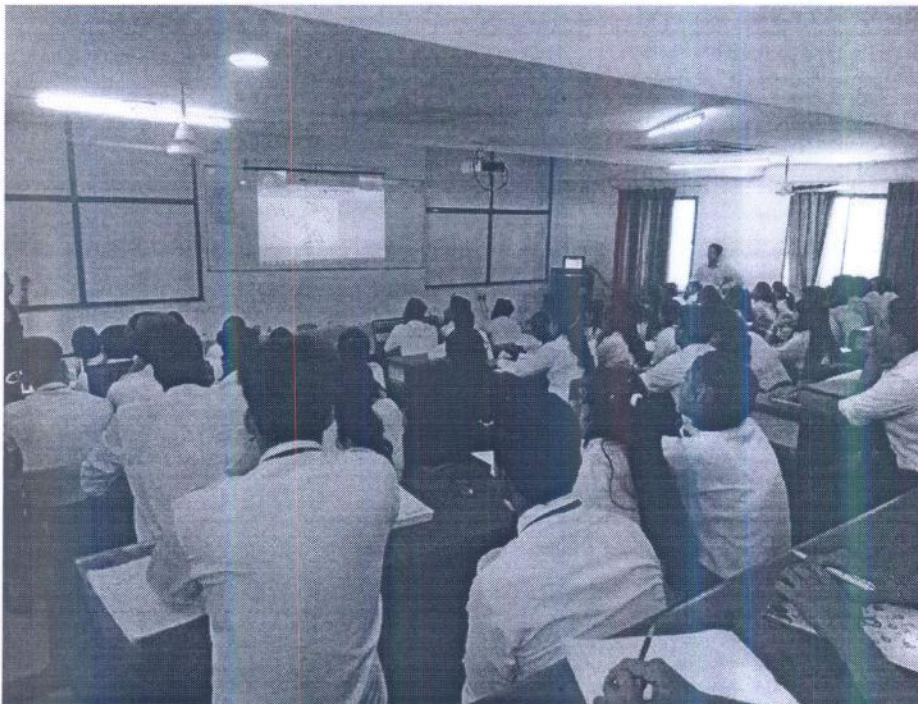

Registrar

Bareilly

security's strength or weakness. Different terms related to Companies Act, 2013 has been also discussed viz. Memorandum of Association and Articles of Association.

We extend our deep gratitude to CA Sachin Agarwal (Technical Analyst and Full-Time Trader in Stock Market) from Bombay Stock Exchange Institute Ltd. who really made the students aware of the practical applicability of technical analysis.

The workshop proved to be fruitful under the guidance of Prof. YDS Arya (Vice-Chancellor), Dr. Manish Gupta (Dean Management), Dr. Dheeraj Gandhi (HOD, BBA & B.COM), Ms. Shweta, Dr. Hitendra Shukla, and Mr. Saurabh Kumar.

Excellence in Excel

Resource Person(s): Prof. YDS Arya

Date: April 09, 2019

Venue: M1, Academic Block I, Invertis University

Attendees: 47

Event Description:

MBA Department is organizing a workshop on "Excellence in Excel" by Prof. Dr. Y. D. S Arya, Hon'ble Vice-Chancellor, Invertis University for the students of MBA 2nd Semester. This workshop will help MBA students to develop skills in MS-Excel.

In business, literally, any function in any industry can benefit from those with strong Excel knowledge. Excel is a powerful tool that has become entrenched in business processes worldwide--whether for analyzing stocks or issuers, budgeting, or organizing client sales lists.

Employability Skills

Resource Person(s): Mr. Anurag Ashok

(Zonal Business Manager, Bareilly Region) from AIRTEL

Date: April 25, 2019

Venue: Seminar Hall 1, Invertis University

Attendees: 198

Event Description:

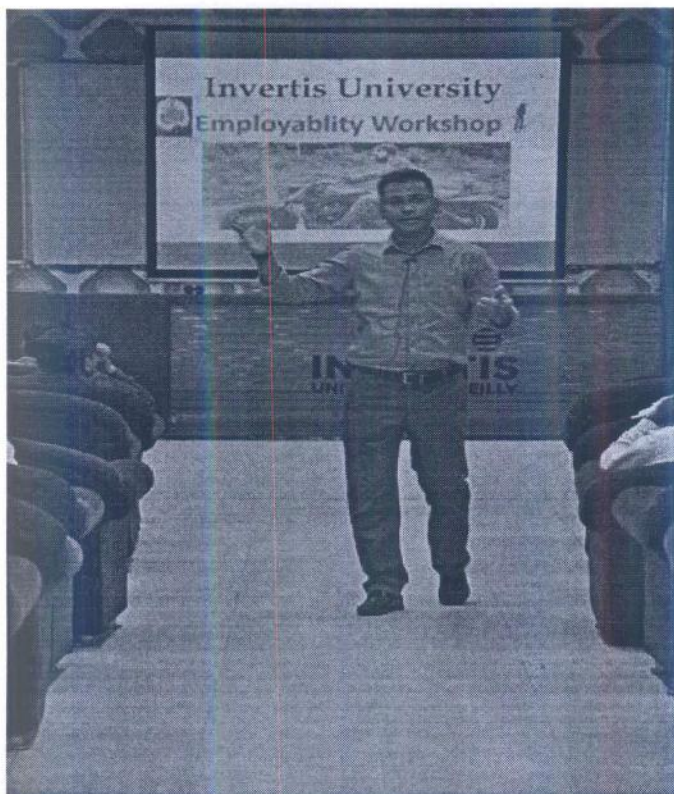

On 25th April 2019, Department of BBA & B.COM in co-ordination with CRC Department organized a workshop for the students of BBA 2nd & 3rd year on "Employability Skills" by Mr. Anurag Ashok (Zonal Business Manager, Bareilly Region) from AIRTEL. This is focused on all the key skills that are required in today's era for being employable. He basically elaborated on how your education and experience may make you eligible to apply for a job but, to be successful in most roles, you will need skills that you are likely to develop over time. Some will be specific to the job, but the vast majority will be so-called 'soft skills' that can be used in any job or employment sectors. These soft skills are 'employability skills': they are what makes you employable. As a general rule, employers are willing to teach someone the job-specific skills required, such as how to operate particular pieces of machinery or use particular computer packages that are very specific to that role or company. However, they usually want to see that you already have the other 'soft skills' before hiring, because they are much harder to teach. Being able to apply for a job in the right way, shine at interview and getting a job is not a key employability skill. The workshop also acquainted students with the different skills that are required to crack any interview. He also focused on the clarity of anything that you are studying or doing in your life. Finally,

Santosh

Registrar
Invertis University
Bareilly

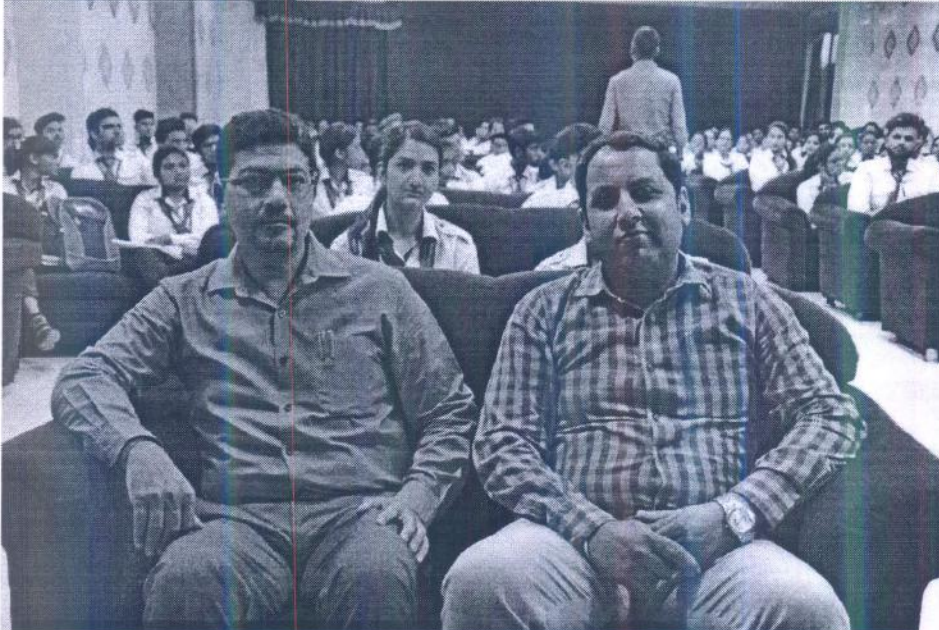

towards the end, students were also made to do an activity, which refreshed their soul and minds. We extend our deep gratitude to Mr. Anurag Ashok (Zonal Business Manager, Bareilly Region) from AIRTEL who really made the students aware of the need for employability skills. The workshop proved to be fruitful under the guidance of Prof. YDS Arya (Vice-Chancellor), Dr. Manish Gupta (Dean Management), Dr. Dheeraj Gandhi (HOD, BBA & B.COM), Ms. Shilpi Dixit, Dr. Saurabh Gupta, Mr. Manmohan Bansal, Ms. Priyanka Awasthi, Ms. Darshneel and Dr. Rahul Yadav. Also, we place on record our heartfelt thanks to Mr. Diggaj Gupta (Senior Executive, CRC Department) for arranging such a knowledge-seeking workshop.

Report of Skill Development Workshop

Event: PLC & Scada Workshop

Resource Person(s): Techvision

Date: 15 Oct. 2015 – 16 Oct. 2015

Venue: Seminar Hall 1, Invertis University

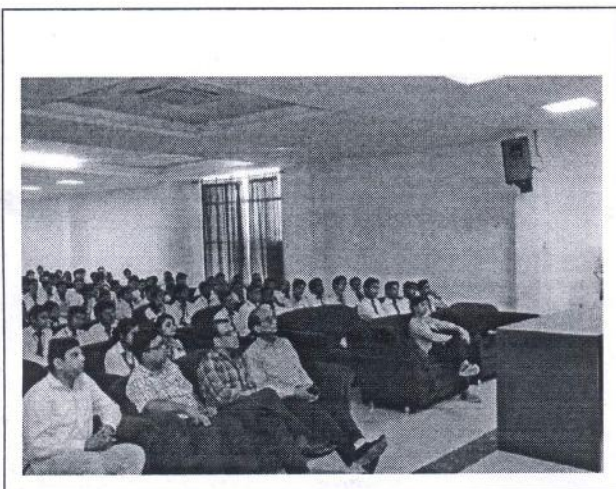

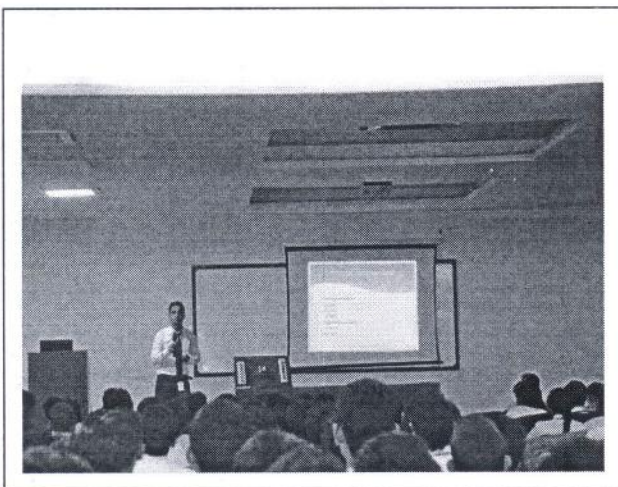

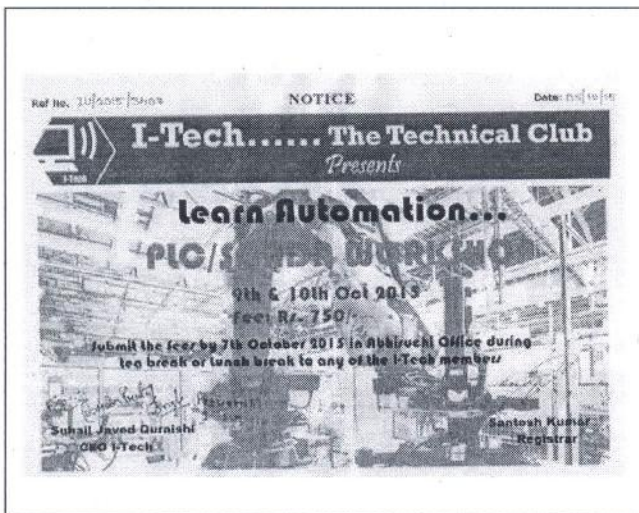

Attendees: 110 [B.Tech. & Diploma E.E. & E.C. (2nd year onwards)]

Event Description: Programmable Logic Controller or PLC is a computing system used to control electromechanical processes. SCADA stands for Supervisory Control and Data Acquisition. It is a type of industrial control system that is used to monitor and control facilities and infrastructure in industries. PLCs Along With Certain Other Necessary Ingredients Like Sensors, Motors, Actuators, Valves, Conveyors, Boilers, SCADA Systems, Computers & Many More, Makes A Real Automated Manufacturing Plant. The main objective of PLC & SCADA Workshop is to make the aspiring engineers acquainted with the conceptual as well as practical knowledge of the Industrial Automation & latest technologies being used to achieve industrial automation. The idea of organizing this workshop is to inculcate the basic fundamentals of automation in the students and provide them with a platform to work on, in the near future. The workshop was conducted by the TechVision India. The professional trainers from this organization came to give the students knowledge about PLC & SCADA. Seminar was organized to give a basic intro on the topic and then later for detailed exposure the workshop was organized. In the two day workshop, first day session was on PLC in which the trainers bought equipment for hands on training of the participants on PLC & on the second day session, students performed simulation & control on SCADA on computer systems.

Report of Skill Development Workshop

Event: Speak Smart - Spoken English classes

Resource Person(s): I-Team Team Members

Date: 05 Oct. 2015 – 31 Oct. 2015

Venue: T-15 (Technical Block) Invertis University

Attendees: 38

Event Description: The free spoken English classes, Speak Smart, were organized by I-Tech from Oct 05th 2015 to Oct 31st 2015. The classes were an effort of Team I-Tech and were taken by three students, Sarin Raj Pokhrel of B.Tech (Civil) 4th year, Arti Tyagi of B.Tech (Biotech) 3rd year and Sakshi Singh of B.Tech (Biotech) 3rd year. They aimed to improve the basic spoken language of the students, gradually taking them to higher and advanced level. The classes were open to students of all courses and streams and received an overwhelming response, much greater than that of last year.

We initially began with simple activities like word play, introduction of the students, conversations, newspaper reading, etc. The students were encouraged to speak more and more rather than focusing on just writing. Assignments like looking up one new word with its meaning each day were allotted to make them more committed towards the class. To break the ice and make them more confident and outspoken, we made sure that each student spoke in front of the entire class on any topic at least once daily. They were divided into pairs and groups to help them work on their conversing skills. General grammar like tenses, articles, types of sentences, etc were also brushed up in the classes. To make the classes more fun, simple games were organized for the students every day. Guest lectures were organized which were taken by Dr. Rubina Verma, HOD (PC).

Feedback was taken regularly from the students and useful suggestions were incorporated into the program schedule. The classes were a huge success and proved to be very helpful for the students. We plan to continue them in the upcoming semesters as well, with an even greater zest.
